PRMA Tech

INTERNSHIP PROGRAM | PROBLEM STATEMENT DOCUMENT

Internship Problem Statement & Weekly Tasks

FOUR-WEEK PROJECT ASSIGNMENT TEMPLATE

DOCUMENT DETAILS

Intern Name	[Student Full Name]
Offer / Application ID	[Unique ID]
Internship Domain	[AI/ML / Web Development / Cybersecurity / etc.]
Internship Duration	[Start Date] to [End Date]
Mentor / Supervisor	[Name or Designation]
Document Version	[Version and Issue Date]

PURPOSE OF THIS DOCUMENT

This document defines the four weekly tasks assigned during the PRMA Tech internship. The intern should complete each week's work, prepare the required evidence, and submit it through the official PRMA Tech submission portal.

IMPORTANT: This is a reusable template. Replace all bracketed placeholders with approved domain-specific task content, instructions, deadlines and evaluation criteria before sending it to an intern.

GENERAL SUBMISSION RULES

• Submit each weekly task separately through the unique submission link in your approval email.

• Include source code or project files, a short README/documentation file, and evidence such as screenshots or a demo URL where applicable.

• Use clear file names and ensure shared repository or deployment links are accessible to the reviewer.

• Never include passwords, API secrets, private keys or confidential credentials in submitted files.

• If revisions are requested, update the relevant weekly submission and resubmit through the portal.

WEEK 1 | TASK 1

Complete and approve the task details below before issuing this document to the intern.

Task Title	[Official task title]
Release Date	[DD Month YYYY]
Submission Deadline	[DD Month YYYY, time and timezone]
Estimated Effort	[e.g. 5-8 hours]
Prerequisites	[Tools, knowledge, setup or earlier-week dependency]

1. PROBLEM STATEMENT

[Describe the real problem to solve. Explain the context, intended users or system, why it matters, and the expected outcome.]

2. OBJECTIVES

• [Objective 1: describe a specific result the intern should achieve]

• [Objective 2: describe a specific result the intern should achieve]

• [Objective 3: describe a specific result the intern should achieve]

3. REQUIREMENTS & IMPLEMENTATION GUIDANCE

Functional Requirements	[Features or behaviours that must work.]
Technical Requirements	[Languages, frameworks, tools, APIs or constraints.]
Data / Inputs	[Provided data, input format or approved source.]
Expected Output	[Expected application, model, report or deliverable.]

4. DELIVERABLES

[ ] Deliverable 1: [source code / documentation / test evidence / demo URL]

[ ] Deliverable 2: [source code / documentation / test evidence / demo URL]

[ ] Deliverable 3: [source code / documentation / test evidence / demo URL]

[ ] Deliverable 4: [source code / documentation / test evidence / demo URL]

5. ACCEPTANCE CRITERIA

[ ] Criterion 1: [define how the reviewer verifies completion and quality]

[ ] Criterion 2: [define how the reviewer verifies completion and quality]

[ ] Criterion 3: [define how the reviewer verifies completion and quality]

6. SUBMISSION INSTRUCTIONS

Upload the required files in the Week 1 section of your assigned PRMA Tech submission portal. Add repository/demo links and a short explanation of your work. The portal records the submission time and review status.

Allowed File Types	[PDF / ZIP / source files / other approved formats]
Maximum File Size	[Set upload limit]

Submission Portal	[Student-specific submission URL]

7. REVIEW & FEEDBACK (ADMIN USE)

Review Status	[Pending / Under Review / Approved / Revision Required]
Reviewer	[Reviewer name]
Feedback	[Admin / mentor feedback]
Review Date	[DD Month YYYY]

WEEK 2 | TASK 2

Complete and approve the task details below before issuing this document to the intern.

Task Title	[Official task title]
Release Date	[DD Month YYYY]
Submission Deadline	[DD Month YYYY, time and timezone]
Estimated Effort	[e.g. 5-8 hours]
Prerequisites	[Tools, knowledge, setup or earlier-week dependency]

1. PROBLEM STATEMENT

[Describe the real problem to solve. Explain the context, intended users or system, why it matters, and the expected outcome.]

2. OBJECTIVES

• [Objective 1: describe a specific result the intern should achieve]

• [Objective 2: describe a specific result the intern should achieve]

• [Objective 3: describe a specific result the intern should achieve]

3. REQUIREMENTS & IMPLEMENTATION GUIDANCE

Functional Requirements	[Features or behaviours that must work.]
Technical Requirements	[Languages, frameworks, tools, APIs or constraints.]
Data / Inputs	[Provided data, input format or approved source.]
Expected Output	[Expected application, model, report or deliverable.]

4. DELIVERABLES

[ ] Deliverable 1: [source code / documentation / test evidence / demo URL]

[ ] Deliverable 2: [source code / documentation / test evidence / demo URL]

[ ] Deliverable 3: [source code / documentation / test evidence / demo URL]

[ ] Deliverable 4: [source code / documentation / test evidence / demo URL]

5. ACCEPTANCE CRITERIA

[ ] Criterion 1: [define how the reviewer verifies completion and quality]

[ ] Criterion 2: [define how the reviewer verifies completion and quality]

[ ] Criterion 3: [define how the reviewer verifies completion and quality]

6. SUBMISSION INSTRUCTIONS

Upload the required files in the Week 2 section of your assigned PRMA Tech submission portal. Add repository/demo links and a short explanation of your work. The portal records the submission time and review status.

Allowed File Types	[PDF / ZIP / source files / other approved formats]
Maximum File Size	[Set upload limit]

Submission Portal	[Student-specific submission URL]

7. REVIEW & FEEDBACK (ADMIN USE)

Review Status	[Pending / Under Review / Approved / Revision Required]
Reviewer	[Reviewer name]
Feedback	[Admin / mentor feedback]
Review Date	[DD Month YYYY]

WEEK 3 | TASK 3

Complete and approve the task details below before issuing this document to the intern.

Task Title	[Official task title]
Release Date	[DD Month YYYY]
Submission Deadline	[DD Month YYYY, time and timezone]
Estimated Effort	[e.g. 5-8 hours]
Prerequisites	[Tools, knowledge, setup or earlier-week dependency]

1. PROBLEM STATEMENT

[Describe the real problem to solve. Explain the context, intended users or system, why it matters, and the expected outcome.]

2. OBJECTIVES

• [Objective 1: describe a specific result the intern should achieve]

• [Objective 2: describe a specific result the intern should achieve]

• [Objective 3: describe a specific result the intern should achieve]

3. REQUIREMENTS & IMPLEMENTATION GUIDANCE

Functional Requirements	[Features or behaviours that must work.]
Technical Requirements	[Languages, frameworks, tools, APIs or constraints.]
Data / Inputs	[Provided data, input format or approved source.]
Expected Output	[Expected application, model, report or deliverable.]

4. DELIVERABLES

[ ] Deliverable 1: [source code / documentation / test evidence / demo URL]

[ ] Deliverable 2: [source code / documentation / test evidence / demo URL]

[ ] Deliverable 3: [source code / documentation / test evidence / demo URL]

[ ] Deliverable 4: [source code / documentation / test evidence / demo URL]

5. ACCEPTANCE CRITERIA

[ ] Criterion 1: [define how the reviewer verifies completion and quality]

[ ] Criterion 2: [define how the reviewer verifies completion and quality]

[ ] Criterion 3: [define how the reviewer verifies completion and quality]

6. SUBMISSION INSTRUCTIONS

Upload the required files in the Week 3 section of your assigned PRMA Tech submission portal. Add repository/demo links and a short explanation of your work. The portal records the submission time and review status.

Allowed File Types	[PDF / ZIP / source files / other approved formats]
Maximum File Size	[Set upload limit]

Submission Portal	[Student-specific submission URL]

7. REVIEW & FEEDBACK (ADMIN USE)

Review Status	[Pending / Under Review / Approved / Revision Required]
Reviewer	[Reviewer name]
Feedback	[Admin / mentor feedback]
Review Date	[DD Month YYYY]

WEEK 4 | TASK 4

Complete and approve the task details below before issuing this document to the intern.

Task Title	[Official task title]
Release Date	[DD Month YYYY]
Submission Deadline	[DD Month YYYY, time and timezone]
Estimated Effort	[e.g. 5-8 hours]
Prerequisites	[Tools, knowledge, setup or earlier-week dependency]

1. PROBLEM STATEMENT

[Describe the real problem to solve. Explain the context, intended users or system, why it matters, and the expected outcome.]

2. OBJECTIVES

• [Objective 1: describe a specific result the intern should achieve]

• [Objective 2: describe a specific result the intern should achieve]

• [Objective 3: describe a specific result the intern should achieve]

3. REQUIREMENTS & IMPLEMENTATION GUIDANCE

Functional Requirements	[Features or behaviours that must work.]
Technical Requirements	[Languages, frameworks, tools, APIs or constraints.]
Data / Inputs	[Provided data, input format or approved source.]
Expected Output	[Expected application, model, report or deliverable.]

4. DELIVERABLES

[ ] Deliverable 1: [source code / documentation / test evidence / demo URL]

[ ] Deliverable 2: [source code / documentation / test evidence / demo URL]

[ ] Deliverable 3: [source code / documentation / test evidence / demo URL]

[ ] Deliverable 4: [source code / documentation / test evidence / demo URL]

5. ACCEPTANCE CRITERIA

[ ] Criterion 1: [define how the reviewer verifies completion and quality]

[ ] Criterion 2: [define how the reviewer verifies completion and quality]

[ ] Criterion 3: [define how the reviewer verifies completion and quality]

6. SUBMISSION INSTRUCTIONS

Upload the required files in the Week 4 section of your assigned PRMA Tech submission portal. Add repository/demo links and a short explanation of your work. The portal records the submission time and review status.

Allowed File Types	[PDF / ZIP / source files / other approved formats]
Maximum File Size	[Set upload limit]

Submission Portal	[Student-specific submission URL]

7. REVIEW & FEEDBACK (ADMIN USE)

Review Status	[Pending / Under Review / Approved / Revision Required]
Reviewer	[Reviewer name]
Feedback	[Admin / mentor feedback]
Review Date	[DD Month YYYY]

FINAL INTERNSHIP SUBMISSION CHECKLIST

Use this checklist to verify that all four weekly tasks have been submitted and reviewed.

Week 1	[ ] Submitted [ ] Reviewed [ ] Approved
Week 2	[ ] Submitted [ ] Reviewed [ ] Approved
Week 3	[ ] Submitted [ ] Reviewed [ ] Approved
Week 4	[ ] Submitted [ ] Reviewed [ ] Approved
Final Project Link	[GitHub / Live Demo / Other approved URL]
Final Review	[Pending / Completed]

AUTHORIZATION

This problem statement document is issued for the PRMA Tech internship program. Task-specific content, deadlines and evaluation criteria must be approved by the assigned supervisor before distribution.
